

6 Year Old Speech Pathology Child Checklist

A 6 year old may need to see a speech pathologist if he/she:

- Is stuttering
- Is having difficulty with any sounds (except th) in his or her speech
- Has a limited vocabulary compared to same-aged peers
- Is having difficulty asking or answering questions (who, what, how, why, when, where)
- Is behind in his or her reading ability
- Has trouble spelling
- Is having difficulty writing
- Has trouble with reading comprehension tasks
- Is not engaging in appropriate social interactions with other children
