

## **2 Year Old Speech Pathology Child Checklist**

A 2 year old may need to see a speech pathologist if he/she:

- Does not use two word combinations (e.g. "more biscuit")
- Does not ask questions (e.g. "what dat?")
- Has less than 50 words in his/her vocabulary
- Is stuttering (repeating sounds or words or prolonging sounds)
- Is not easily understood by family members and friends gets frustrated by not being understood
- Is not following 2 step instructions such as "take off your socks and put them in the washing basket".
